Social Media Services   Branding & Creative   Marketing Strategy

### Summary of Services

Moonphase Creative LLC offers social media marketing, copywriting, content creation and marketing services to solopreneurs and small to medium-sized businesses. We offer a variety of packages and tiered pricing to help you find the combination of services that fits your needs.

### Our Approach is a Slow Roll, Not a Quick-Fix

Organic and authentic marketing thrives on careful attention to curating and creating your brand presence and focusing on brand awareness. We focus on a variety of strategies that put authentic brand strategies first, rather than pushing paid ads that often result in fewer conversions and leave you with little voice in the matter. We believe organic marketing with a little SEO is a great strategy for your business in the long run.

#### What's SEO?

Moonphase Creative got its start as a one-woman show offering SEO copywriting services! This remains a valuable part of our strategy, as we utilize analytics and keyword research to help structure your website and social media in a way that appeals to both humans AND algorithms to boost visibility and conversion over time.

#### Can I afford a whole marketing plan?!

Organic social media strategy runs on the concept that slow and steady will win the race. Over time, you'll see a greater following, a more involved community, and develop meaningful connections with the right clients. While quick solutions like paid ads can be a useful tool and seemingly cheaper, these are not the ultimate or only approach to utilize in web marketing.

We specialize in small businesses and solopreneurs, and we offer tiered pricing and customizable packages to make our services accessible and affordable to local brands, start-ups, and businesses both big, small, and those brand who are in transition!

## **What can I expect from Moonphase Creative?**

### **Copywriting for Web**

With our organic SEO approach to copywriting for websites, we optimize your landing page and/or site service pages while making the copy relevant and engaging for potential clients who come to your web page for real information and services.

Static pages make up your website and don't need to change very often:

- Home Page
- About Page
- Service Pages
- Contact Us

Because these pages don't change very often and are direct resources for visitors to learn more about you, your company, and how you can serve them, the writing needs to be clear, concise, and informative while remaining reflective of your brand.

### **Social Media Services**

We also offer a variety of social media management services, email marketing, and blog writing services to help round out your brand messaging and communication efforts. Whether you're creating a web presence from scratch, or have an established web presence, we can help boost your marketing communications to the next level and offer help with social media strategy, content planning and creation, and tailor our services to meet your needs.

### **Marketing & Brand Strategy**

We offer a variety of marketing and branding services, and we also partner with many amazing designers, developers, and creative professionals around town to deliver your dreams. We look forward to helping you achieve your vision and obtain your goals, and thank you for considering Moonphase Creative!

## Copywriting Package

We analyze keywords to determine the best strategy then use those as anchors in your static pages. This includes writing for pages such as the landing page, about page, Service Pages, and so on. You choose the Topic Pages, up to ten for our standard package, and we write the copy with two passes of edits and revisions included in the price.

\$850 for up to 6 - 10 pages of copy.

\$100 per each additional page

(Most Websites utilize less than ten pages of static copy)

## Content Writing & Strategy

Growing your website's relevance and rankings can be done over time with continuous addition of content. I recommend a weekly blog post at minimum to keep Google crawling through your site, while also having relevant, engaging content to share and circulate across social media platforms.

Blog posts should have two to three images and captions/descriptions can also be done to specifically target your chosen keywords. Posts should also have a minimum of one-thousand words. We structure blog posts and copywriting in a way that is SEO/web browser friendly. It's a subtle appeal to the algorithms that the reader won't even notice.

**Blog Post:** \$250/Post

### **Weekly Blog Packages:**

Four posts per month delivered on an agreed-upon schedule.  
\$850/Month for Premium Blog Posts

## Social Media Services
